SUMMARY

Final-year engineering student with hands-on experience in SQL, Python, and data-driven backend systems. Skilled at translating large, multi-dimensional datasets into actionable insights through statistical modeling, dashboards, and metrics reporting. Proven ability to collaborate with cross-functional stakeholders, own problems end-to-end, and drive decisions using quantitative, first-principles analysis.

EDUCATION

National Institute of Technology, Silchar <i>B.Tech in Electronics and Communication Engineering CGPA: 7.77</i>	Assam, India 2023 – 2027
Jawahar Navodaya Vidyalaya, Bharuch <i>Class XII – 87.4% Class X – 81.8%</i>	Gujarat, India 2020 – 2022
CSRL Super 30 <i>Competitive IIT-JEE Residential Program – Selected from across India</i>	Delhi, India 2022 – 2023

INTERNSHIP

Research Intern – S.N. Bose Research Centre, NIT Silchar <i>Data Analysis Python Model Benchmarking Performance Metrics</i>	NIT Silchar June 2026 – July 2026
- Ran quantitative benchmarking on a computer-vision model, analyzing accuracy, latency, and resource-usage metrics to guide deployment decisions, reaching 88.2% accuracy at 14–16 FPS. - Used data-driven optimization (INT8 quantization) to cut RAM usage by 75% and double inference speed, presenting trade-off analysis to the research team. - Debugged runtime and environment issues using systematic, first-principles problem solving to improve pipeline stability.	

PROJECTS

(1) SocietyPay – Society Management & Analytics Platform <i>SQL Python Scikit-learn Node.js MongoDB Redis AWS</i>	GitHub ↗ 2025 – 2026
- Built a production platform processing real transaction and complaint data, modeling it into structured schemas to generate metrics for a live stakeholder-facing dashboard. - Designed a Naive Bayes NLP classifier to categorize complaints and an Isolation Forest model to flag anomalous visitor patterns, turning raw logs into actionable alerts. - Queried and aggregated multi-dimensional payment and usage data to surface trends for secretaries and residents, improving response time to issues. - Integrated Razorpay payments with auto-verification and built asynchronous job pipelines (Redis, BullMQ) to keep financial data consistent and reliable at scale. - Containerized and deployed the system on AWS EC2 with CI/CD, ensuring the data pipeline stayed reliable under real user load.	
(2) DevMind – Document Intelligence & Retrieval Platform <i>Python FastAPI Vector Database Sentence Transformers RAG</i>	GitHub ↗ 2026 – Present
- Built a data pipeline that extracts, cleans, and chunks unstructured documents for structured downstream analysis and retrieval. - Generated semantic embeddings and benchmarked retrieval relevance to iteratively improve search accuracy on real query data. - Designed the system to answer natural-language questions over large document sets, translating unstructured data into precise, queryable answers.	
(3) Technical Talk – Production-Ready LLM Deployment	YouTube ↗

TECHNICAL SKILLS

- Data & Analytics:** SQL, Excel, Python (Pandas, NumPy), Scikit-learn, Statistical Modeling (Classification, Anomaly Detection), Data Visualization, Dashboards
- Languages / Scripting:** Python, JavaScript, TypeScript, C++, SQL, HTML, CSS
- Backend:** Node.js, Express.js, FastAPI, REST APIs, JWT, RBAC, Redis, Rate Limiting
- Databases:** MongoDB, PostgreSQL, Redis, MongoDB Atlas
- Cloud & DevOps:** Docker, Kubernetes, AWS EC2, GitHub Actions, CI/CD
- Tools:** Git, GitHub, Linux, Postman, VS Code | **DSA:** 200+ LeetCode Problems

POSITIONS OF RESPONSIBILITY

Illuminits Society, NIT Silchar <i>Technical Head – Managed tech infrastructure; coached juniors and coordinated across teams</i>	NIT Silchar 2024 – Present
---	-------------------------------

ENTREPRENEURSHIP / CAMPUS INITIATIVE

Campus Food Venture – Co-Founder <i>Incand Campus Fest</i>	NIT Silchar 2025
Co-founded a campus food venture, selling 130+ units in 3–4 days for Rs. 28,000+ in revenue, using sales data to guide pricing, inventory, and marketing decisions end-to-end.	

ACHIEVEMENTS

- Selected for **CSRL Super 30** – national-level IIT-JEE residential program | Published blog on **Kubernetes + LLM deployment** at llm-deployment.hashnode.dev
- SOF Bronze Medalist – District Level | Company Sergeant Major (CSM), NCC NIT Silchar
